

**Ontario Association on  
Developmental Disabilities**

## Day Program Innovation

**Presenter:** Janeen Halliwell, People Minded Business

November 9, 2022

## A Few Words About Innovation

- Innovation is purposeful creativity.
- Organizations innovate to:
  - ✓ Solve a problem
  - ✓ Seize an opportunity to create something new to fill a gap, or
  - ✓ Change something that exists to be better.
- Innovation is important to the advancement of society and to improving people's lives.

The more diverse your working group  
the more innovative ideas!

People Support What they Help Co-Create

CQI + CPS + HCD

WITHology is revolutionizing who has a seat at the table.

## Journey to Belonging – Choice & Inclusion Principles

- Services build on the strengths of people & supports provided by families, support networks & communities.
  - Supports complement services available in community
  - Supports are culturally appropriate, & reflect regional differences in ON
- Supports are person-directed & flexible
  - People have more control over directing & managing their funding & supports

## Journey to Belonging – Choice & Inclusion Principles

- Services are driven by evidence, outcomes, and continuous improvement
  - More emphasis on outcomes & quality services that are responsive to feedback from people using them.
- Services and supports promote health, well-being, and safety.
  - Services help address systemic barriers (discrimination, ableism) that prevent people from accessing and fully participating in their communities.

## What matters most to people supported & families?

Social  
Connection

Purposeful  
Activities (\$\$\$)

Choice

Community  
Involvement.

Physical  
Activities

Safety
